This four level parking garage is located on the NE corner of Calvert and Franklin Streets. It is of concrete construction with an overlay of pre-fabricated patterned cement screening.

Beginning with the Calvert St. facade, a large drive-in entrance opens from the far left of the ground floor. The remainder of this floor is filled by vertical concrete louvres atop a concrete foundation. The three upper stories are completely covered by a 3x8 array of nine footon a side squares of prefabricated patterned cement screening.

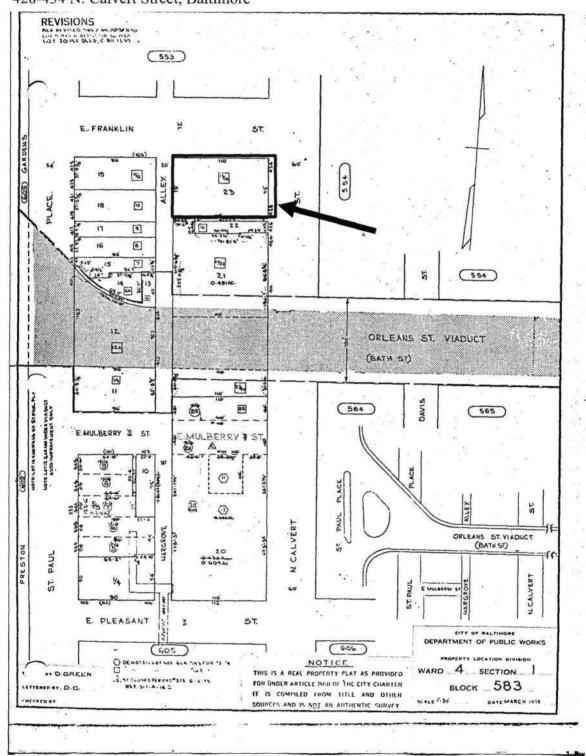

The three story screen and concrete foundation continue around the corner, sloping up one third of the Franklin St. facade. The middle third of this facade is surfaced in concrete, scored in squares three feet on a side. The farthest right third of this facade is again covered by the screening; this section only exhibits screening on the upper 2 floors, as the slope of Franklin Street leaves the bottom floor underground.
